

BREAST CANCER RISK CALCULATOR

**ESSENTIAL PLAN, BASIC PLAN, CORE SAVER, TRADITIONAL PLAN, COMPREHENSIVE PLAN,
PLUS PLAN**

Breast cancer is the most prevalent cancer among our female members. To help identify the disease early, we've added a breast cancer risk calculator on the Bankmed website, that works out your risk of developing breast cancer. Benefits are then based on your risk rating. For example, if you're high risk, you have access to an MRI scan. You may also join the Oncology Managed Care Programme, to make sure you get the right treatment.

WHAT'S NEW FOR 2019

To reduce your out-of-pocket payments, we have introduced innovative new benefits to suit your needs.

NEW-BORN HEARING TEST

ESSENTIAL PLAN, BASIC PLAN, CORE SAVER, TRADITIONAL PLAN, COMPREHENSIVE PLAN, PLUS PLAN

Good news for parents – your newborn, up to eight weeks, can have a hearing test with an audiologist to check for any hearing disorders as early as possible.

PREMIER PLUS / HIV

ESSENTIAL PLAN, BASIC PLAN, CORE SAVER, TRADITIONAL PLAN, COMPREHENSIVE PLAN, PLUS PLAN

Another new benefit is for HIV-positive members, and aims to better manage their treatment and outcomes. The Premier Plus Network has been extended to give HIV-positive patients a dashboard and scorecard on the Bankmed website that measures treatment. It identifies any areas that need improvement. The Premier Plus network includes GPs that Bankmed members already use and around 50% of patients on ARVs consult a Premier Plus GP.

VIRTUAL CONSULTATIONS

ESSENTIAL PLAN, BASIC PLAN, CORE SAVER, TRADITIONAL PLAN, COMPREHENSIVE PLAN, PLUS PLAN

You can now also have virtual consultations with your doctor! After you've had a face-to-face consultation, you can download an app for other consultations – up to three per beneficiary each year. You will pay normal out-of-hospital benefits for these virtual consultations.

SPECIALIST NETWORK

COMPREHENSIVE PLAN

At the moment, there are just over 2 000 specialists on the Bankmed network. We aim to contract an additional 2 200 specialists in the next two years.

HOME CARE

ESSENTIAL PLAN, BASIC PLAN, CORE SAVER, TRADITIONAL PLAN, COMPREHENSIVE PLAN, PLUS PLAN

Now you can enjoy high-quality medical care in the comfort of your own home. Examples include IV infusions, wound care and postnatal care for healthy moms and babies who wish to be discharged from hospital early. We now also offer end-of-life care in partnership with the Hospice Palliative Care Association of South Africa.

ANNUAL HEALTH SCREEN

Bankmed benefits make provision for one annual Personal Health Assessment (PHA) per beneficiary over the age of 18. This is a health-screening tool that highlights any current health risks. Once any risk is identified, it will need to be confirmed by your GP. For more visit www.bankmed.co.za
