## Overview

- This medicine list (formulary) contains medication for acute (short term) use only.
- We have set the quantity of medication for each medication sub-category (medication with similar therapeutic effects) according to a specified number of days. For example, a member may claim up to a maximum of 30 Moxymax 250mg capsules once every 120 days or 200ml Augmaxcil S suspension once every 120 days

Kindly note: You may prescribe only one medication from each medication sub-category in the specified time period. For example, you may not prescribe Disprin and Paracetamol within 120 days of each other, as both medication are in the same medication sub-category.
